WORK EXPERIENCE

Full Stack Developer Intern, WECCC

Jan 2022 - Jun 2022

- Built frontend using functional react components using react hooks
- Implemented backend API endpoints to fetch user data
- Collaborated with 3 interns and senior developer to brainstorm and implement ideas and feedback into app's development
- Performed code reviews and participated in Agile development process
- Technologies and Methodologies: React.js, Node.js, Express, MongoDB, and Git

Web Developer, AuctionHaeus & Liquidation Center

Sept 2021 - Jan 2022

- Developed and modified mobile-friendly websites – mostly built on WordPress – and all the associated HTML, CSS, and JavaScript code
- Provided customer support, fixed websites bugs and issues, kept software up to date and fulfilled
- Uploaded websites to chosen live server and redirected desired domains towards new websites ensuring 99.9% uptime.
- Technologies and Methodologies: WordPress, Responsive Design, HTML/CSS, JavaScript

PROJECTS

DevConnector

- Built a full-stack social network app that includes authentication, profiles, and forum posts
- Developed React.js components for client interface
- Used Redux with DevTools for state management
- Built extensive backend API with authentication using node express
- Used MongoDB for the database with MongoDB Atlas to host it in the cloud, and used mongoose as an abstraction layer
- Made API requests to test endpoints using Postman
- Deployed it to Heroku using git
- <https://sheltered-castle-39028.herokuapp.com/>
